

SCIAL DISTANCE BRACELET

Body temperature detection

24h body temperature curve, temperature measurement accuracy: 0.1°C , exclusive patent temperature algorithm, support of wrist and outer test. The temperature measurement accuracy of many contact-type integration calibration-free temperature chip arrays reaches 0.1°C (sensor: CT1711MCR)

Social distancing

1 -3 meters mutual vibration Social distancing bracelet Any N individuals within M individuals approach vibration ($M \geq N$).

Operating interface

- Note: 1, when the wearer receives the bracelet warning, please take the initiative to stay away from others, the bracelet will stop warning.
2, when back to the safe area, can be in the "interface" long press, can stop warning.

Pedometer

Triaxial accelerometer has high-precision step gauge and sleep detection

Charger

Smart charging

USB charging method, no charging cable is required,
Charging convenient secure.
